Zhilin Jiang

Application Name: NetEase Youdao Dictionary

Description: A translator

Task 1(Typing):

- Non-technical description:

   The user can type words or sentences to find the translation in the language that the user needs.

- Technical description:

   The user can find different language translation on the top left corner of the app, such as English to Chinese, Japanese to Chinese, French to Chinese, etc

   After the user finds the right language that they want, then type the word to find the translation.

- What can go wrong while completing the task:

   Can not translate the abbreviated words or slang or meme.

Task 2(Voice)

- Non-technical description:

   The user can open the voice mic and speck the word out.

- Technical description:

   The user can press the mic icon on the top right corner of the app and speak out words.

- What can go wrong while completing the task:

   Not very useful compared to typing, if the user is not fluent or has an accent in the language they speak, the translation can be different.

Task 3(Photo)

- Non-technical description:

   The app can scan through the photo and translate words from it.
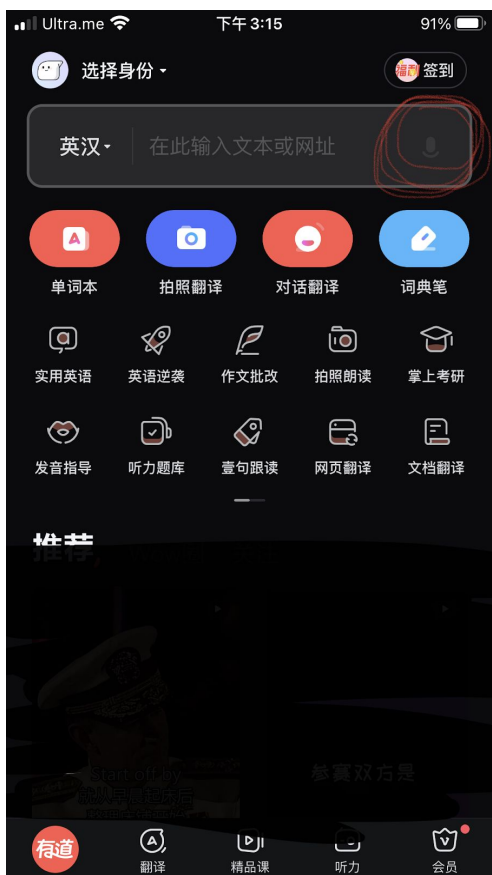

- Technical description:

   The user can press the dark blue camera icon on the top of the app, it can scan through a photo or can take a picture right away and scan through it.

- What can go wrong while completing the task:

   The user needs to have perfect handwriting skills, otherwise, the translation will be terrible. However, It is very useful for pdf and other typing documents.
